## **Surgical Approaches to Internal Fixation Course (SAIF)**

*29 - 30 November 2013*

Course convened by: Mr Daren Forward, Queens Medical Centre, Nottingham

Venue: Smith & Nephew Surgical Skills Centre, York

The Surgical Approaches for Internal Fixation (SAIF) course is offered by Smith & Nephew and is designed for 3rd – 5th year registrars /residents. This unique course offers hands-on individualised learning experiences and utilises cadaver labs to demonstrate anatomy and safety zones during tissue dissections. Course participants will perform surgical exposures in fresh cadavers and will apply hardware to cadaver bones as they would in performing an open reduction and internal fixation of a real fracture. In addition to cadaver dissections, course teaching methods will include didactic presentations and case reviews by renowned faculty. There will be ample time throughout the course for one-on-one interface with faculty.

Fee: £195.00
